Vacancy - Graduate Web Developer

Newsnet Corporation Ltd. is seeking a graduate web developer with server side programming skills (PHP / MySQL or a willingness to cross-train to these) and with an understanding of associated web technologies, to work on web-based financial services tools in a permanent position.

Ideally, the candidate should have a good working knowledge of:

- *PHP 4 or 5*
- *MySQL*
- *XHTML and CSS*
- *Object oriented techniques*

An understanding of the following would also be useful:

- *JavaScript*
- *XML*

Good team-working skills are also required.

Where necessary, training will be provided, with candidates encouraged to gain Zend PHP Certification.

All applicants should have at least a 2.1 degree in a relevant discipline. You should have full entitlement to work in the UK.

Salary: up to £20,000 depending on background.

About Newsnet

Newsnet is a dynamic and fast growing organization providing financial services to a number of blue chip companies. Its success is largely due to its novel, state-of-the-art, web based tools that enable the outsourcing and automating of a financial matters for its customers.

The company is based next to Battersea Bridge, London.
